

Carlos Santisteban

Fullstack Software Engineer specializing in Frontend

✉ carlos.santisteban@outlook.com

🔗 github.com/santistebanc

📍 Berlin, Germany

Mexican and Spanish (full european citizen)

Age 31

Experienced software engineer with 10+ years of expertise in web application development. Specializing in frontend development with JavaScript and TypeScript, with strong full-stack capabilities using Node.js. Passionate about building user-centric solutions and leveraging modern technologies to deliver high-quality, scalable applications.

📁 PROFESSIONAL EXPERIENCE

June 2021 - March 2025 | Software Engineer | [Lingoda - Berlin, Germany](#)

Developed features for a language learning platform at a startup company, focusing on interactive practice exercises including quizzes, flashcards, and other engaging learning tools.

- Built frontend features using React with TypeScript
- Implemented UI components using MaterialUI
- Developed GraphQL API using Apollo
- Worked with backend services built on NestJS
- Managed data persistence using PostgreSQL databases
- Collaborated with cross-functional teams in a startup environment

September 2017 - January 2021 | Software Engineer | [Quandoo - Berlin, Germany](#)

Contributed to multiple teams developing complex features for a restaurant reservation platform, specializing in advanced UI components and SEO optimizations.

- Developed complex UI components including interactive carousels and responsive layouts
- Implemented SEO optimizations with extensive server-side rendering
- Built scalable features using React with Redux
- Created styled, reusable components with Styled Components
- Enhanced user experience through responsive design

March 2016 - July 2016 | Web Developer | [Market Logic Software - Berlin, Germany](#)

Worked on development of advanced UI components for data visualization.

- Created interactive graphs and data visualizations using React and D3.js
- Developed dynamic widgets for data representation
- Focused on creating intuitive user interfaces

April 2015 - June 2015 | Software Developer | [AISA - Mexico](#)

Contributed to software development for legal document management systems in government institutions.

- Designed and programmed UI forms and controls using Windows Presentation Foundation (WPF)
- Developed applications using C#
- Worked with large SQL databases to manage legal documents
- Collaborated on systems for government institution management

🎓 EDUCATION

August 2012 - May 2017 | Bachelor of IT Engineering | [Tecnológico de Monterrey](#)

Comprehensive studies covering Object-Oriented Programming, Data Structures, Databases, Networks, Servers and Operating Systems, IT Security, and Cloud Computing.

Carlos Santisteban

Skills & Competencies

TECHNICAL SKILLS

FRONTEND TECHNOLOGIES:

- Languages: JavaScript, TypeScript, HTML, CSS
- Frameworks & Libraries: React, Redux
- Styling: MaterialUI, Styled Components
- Build Tools: Webpack, Vite
- Other: ReactRouter, AMP (Accelerated Mobile Pages)

BACKEND & DATA:

- Runtime: Node.js
- Frameworks: Express, Hono, Fastify, NestJS
- Realtime: WebSockets, Geckos.io, Partykit
- Databases: PostgreSQL, SQL, Convex
- API Technologies: REST APIs, GraphQL, Apollo, tRPC

TOOLS & PRACTICES:

- Testing: Jest, Enzyme
- Version Control: Git, GitHub Actions
- CI/CD: GitHub Actions
- Design: Figma
- Project Management: Jira
- AI Tools: Cursor, GitHub Copilot, MCP, RAG

CORE COMPETENCIES

TECHNICAL EXPERTISE:

- Routing and State Management
- Client-Server Interaction
- Server-Side Rendering (SSR)
- SEO Optimization
- Responsive Design & UX/UI
- Unit Testing & CI/CD
- Agile Methodology
- AI-Assisted Development
